

Nuvo Home System

Details

The nuvoH2O Home system uses revolutionary technology to lower the PH level of water based on the basic scientific process of chelation in which the metal ions causing hard water, principally calcium and magnesium, are bound to the chelating agent in nuvoH2O's FDA-approved, proprietary formulation, which keeps the minerals soluble and unable to cause hard water problems. The resulting water is soft and healthy for all of your household uses, including drinking, bathing, washing, and lawn and plant watering.

- Size: 5" x 24"
- Weight: 7 lbs
- Water flow: 12-15 gpm with 1" ports (no change to existing water flow)
- Capacity: Approximately 35,000 gallons per cartridge
- Uses 2" x 20" replacement cartridges

Nuvo Manor System

Details

The nuvoH2O Manor system uses revolutionary technology to lower the PH level of water based on the basic scientific process of chelation in which the metal ions causing hard water, principally calcium and magnesium, are bound to the chelating agent in nuvoH2O's FDA-approved, proprietary formulation, which keeps the minerals soluble and unable to cause hard water problems. The resulting water is soft and healthy for all of your household uses, including drinking, bathing, washing, and lawn and plant watering.

- Size: 8" x 29"
- Weight: 14 lbs
- Water flow: 15-18 gpm with 1.5" ports (no change to existing water flow)
- Capacity: Approximately 50,000 gallons per cartridge
- Uses 4" x 20" replacement cartridges
